

JOAN (BROWN) HILLARY

"She looketh as if butter would not melt in her mouth."

Dear Phoebe -

This is "Brown" here - however are you? Patty's description and report of you sounded most interesting--I gather you're going to be a co-ed for a year, then will be travelling, "casing" the various universities to find one that suits you--right? Don't omit the University of Windsor--not because you might like it--although you might, at that!--but because it is twenty miles from the Hillary household--and we'd love to see you. I think you would approve of Norm--he's the man I married--the only one, by the way - probably somewhat to the disappointment of old school-mates who thought they could count on me to provide some spicy notoriety. Norm is a hot-headed Irishman, with a chip on his shoulder, terribly sentimental, terribly good at siring children and providing for them, which is an unusual combination! So we'll expect you.

The Re-union was, I would say an unqualified success. At the Guild Inn the sherry was flowing freely enough to dispel any airs anyone might have tried to put on. After the first gasp of recognition, we very quickly slid into a relaxed cameraderie as of old--whee--that's quite a sentence. Again at Adrienne's there were gallons of joy-juice, and in no time people were confiding deep and often sad secrets as well as whooping it up. The only drawback - as far as I was concerned - was age - at midnight I was exhausted - and like Cinderella - tore back to the Park Plaza before my face slipped. Adrienne and Patty are made of sterner stuff. They were up until 4:00 a.m. - also Fraser who left at 3:30 - had to drive herself out to Willowdale - and made it. Tea the next day at Julia Wright's for the Staff consisting of Miss Layton who is perfectly delightful, exactly the same, and Mrs. Marriott. I left before the others arrived.

You may well wonder what prompted this letter, when as you must know I am not in the habit of chasing up girlhood friends for old times' sake. Although I must admit when I do get around to it, it has always been most rewarding and enjoyable. The reason - if I must have one - is that I didn't get around to putting my "thumb-nail" sketch in writing, while in Toronto - and promised Patty I would send it to you via her. And since I can't put a pen to paper without producing a deluge, I'm afraid you are for it, chum. What's more I'm going to describe each and every one of my children in detail! So fill up your glass, take your shoes off, put your feet up - and relax - it won't be that bad!

Affectionately,

Brown

My voice ascending high."

Greetings to M.E.S. '39:

Twenty-five years have gone by--I can't believe it! I hope that every member of our class is healthy and happy.

Congratulations to Patty and Adrienne for organizing this re-union--I understand that the response has been wonderful, and I wish that I could be joining you.

Love and Best Wishes to all of you and have a wonderful week-end.
